

Induction / Statutory / Mandatory:

- Adult Support and Protection
- Child Protection
- Equality and Diversity: Age
- Equality and Diversity: Disability Equality
- Equality and Diversity: Learning Disabilities
- Equality and Diversity: LGBT
- Equality and Diversity: Overview
- Finance
- Fire Equipment
- Fire Prevention
- Fire Safety - What is Fire?
- Food Hygiene: Food Contamination
- Food Hygiene: Legal Requirements, Food Poisoning and Bacteria
- Food Hygiene: Preventing Food Poisoning
- Health & Safety: Hazards and Risks
- Health & Safety: Health & Safety Law
- Health & Safety: Incidents
- Health & Safety: Structure and Purpose
- Infection Control: Decontamination
- Infection Control: Hand Hygiene
- Infection Control: Segregation of Waste and Linen
- Infection Control: Standard Precautions
- Infection Control: Structure and Background
- KSF - Development and Revision Process
- KSF - Overview
- KSF - Post Outlines
- *Lothian - Business Continuity Management
- *Lothian - Data Protection and Confidentiality
- *Lothian - IT Security
- *Lothian - LEAN in Practice
- *Lothian - Mental Health and Wellbeing
- *Lothian - Occupational Health Service
- *Lothian - Understanding and Supporting the Carer
- *Lothian - Working in Partnership with Carers
- Management of Aggression: Core Skills
- Manual Handling (NPH) - Anatomy
- Manual Handling (NPH) - Cause of Injury
- Manual Handling (NPH) - Efficient Movement
- Manual Handling (NPH) - Ergonomics
- Manual Handling (NPH) - Legislation
- Manual Handling (NPH) - Workstation
- Manual Handling (Patient) - Anatomy
- Manual Handling (Patient) - Cause of Injury
- Manual Handling (Patient) - Efficient Movement
- Manual Handling (Patient) - Ergonomics
- Manual Handling (Patient) - Legislation
- Manual Handling (Patient) - Workstation
- Risk Management: Your Roles and Responsibilities

*These modules are specific to NHS Lothian. However, the Wimba Create scripts are available to Organisations that have completed the Rapid Authoring training

Safe Blood Transfusion Practice:

- Level One:
 - SHOT Reporting Scheme
 - Blood Group Serology
 - Requesting Procedure
 - Sampling Procedures
 - Collection Procedure
 - Administration Procedure
 - Management of Transfused Patient
- Level One (Lab):
 - Laboratory Module
- Level Two:
 - Role of the Hospital Transfusion Committee
 - Pre-transfusion Procedures
 - Red Blood Cells
 - Platelets
 - Plasma Components
 - Massive Transfusion
 - Plasma Derivatives
 - Adverse Effects of Transfusion
- Level Three:
 - Appropriate Transfusion Practice

Supervisory Management:

- Assertiveness Management
- Challenging Inappropriate Behaviour
- Customer Care
- Employability Skills
- Good Manufacturing Practice (GMP)
- Health Management
- Learning
- Listening
- Presentation Skills for Science Professionals
- Presenting within your Community
- Report Writing
- Stress Management
- Team Work
- Team Working and Communicating Information
- Thinking and Support Management
- Values, Beliefs and Assumptions
- Work Life Balance

ECDL and Information Technology:

NB: Additional costs apply to ECDL content. This is BCS approved content provided in partnership with Enlight KS

- ECDL Essentials
 - IT User Fundamentals
 - Using Email and The Internet
 - Security for IT Users
- ECDL Extra
 - Word Processing
 - Spreadsheet Software
 - Presentation Software
 - Improving Productivity Using IT
- An Introduction to Information Technology Applications:
 - Getting Started
 - Using a Computer
 - Using Microsoft Word
 - Using Microsoft Excel
 - Using Microsoft Access
 - The Internet and Communication

NVQ / SVQ:

- A1 Assessor Unit
- V1 Verifier Unit

Clinical:

- *Lothian - Safe Use of Chemotherapy
- *Lothian - Preoperative Assessment
- *Lothian - SEWS (Standard Early Warning Signs for Acutely Ill Patients)

*These modules are specific to NHS Lothian. However, the Wimba Create scripts are available to Organisations that have completed the Rapid Authoring training

Science and Technology / Biomedical:

- Analytical Chemistry for Biosciences
- Animal and Plant Cell Culture
- Applied Biochemical Techniques
- Aseptic Handling Techniques
- Biochemistry: Theory and Practice
- Biotechnology: An Introduction
- Carrying Out Simple Testing Operations
- Cell Biology: Theory and Practice
- Cell Culture: Fundamentals
- Chemical Engineering & Heat and Mass Transfer
- Chemical Engineering Laboratory
- Chemical Engineering Principles
- Chemical Principles - Organic
- Chemical Principles - Physical
- Cleanroom Activities
- Controlling Stocks of Laboratory Materials and Equipment
- Customer Care and Service
- Developing an Environmental Perspective
- Developing Environmental Awareness
- Disinfection and Sterilisation
- DNA Molecular Techniques - Theory and Practice
- DNA - Structure and Function
- Environmental Law and Your Business
- Enzyme Technology
- Fundamental Chemistry: Theory and Practice
- Gas Liquid Chromatology
- Good Laboratory Practice
- Good Manufacturing Practice (GMP)
- High Performance Liquid Chromatography
- Human Body Structure and Function
- Industrial Chemical Processes
- Information Technology Applications
- Introduction to Chemistry
- Introduction to Chromatography
- Introduction to Quality Systems
- Introduction to Statistics
- Labelling and Packaging
- Laboratory Operations
- Maintaining a Safe and Healthy Working Environment
- Maintenance of Hygiene and Good Housekeeping Practices
- Maths for Engineers
- Microbiology: Theory and Practice
- Presentation Skills in Science
- Process Measurement Technology
- Quality and H&S Systems in the Biotech Industry
- Statistics - Session 2
- Statistics - Session 3
- Team Working and Communicating Information

In Development / Coming Soon:

*These modules will be specific to NHS Lothian. However, the Wimba Create scripts are available to Organisations that have completed the Rapid Authoring training

- Recruitment and Selection
- Records Management
- One Stop Dispensing
- Symptomatic Relief
- Waste Management
